- Profitability & tax reports
- Card by QR & online top-up links
- Cashiers, shifts, cash-up & Local Hub

Start free. Pay only when it's earning for you.

Sign in at posja.biz, set up your menu online (or let us load it), and sell. Your first **30 days or first 300 sales** — whichever comes later — are free on every plan. No installation fee for self-setup. On-site setup, hardware and training are priced separately and kept low: we would rather earn a little every month than a lot on day one.

How it works

1

Sign up online

posja.biz — your business name, sector, and how many terminals. Two minutes.

2

Load your menu

Type it in, upload a sheet, or pick a sector template with pictures and let us tidy it.

3

Add your devices

Open your address on any iPad, Android, Windows or Linux device and pick a register. Add to home screen — no app store needed.

4

Sell

Tap, scan, take cash, card or account. Print or text the receipt. It keeps going if the Wi-Fi drops.

5

See everything

Owner and manager sign in from anywhere: sales by hour, cashier, item; stock; profit; GCT — export to Excel.

Optional extras — call or WhatsApp

- On-site setup, staff training & go-live support
- Printer, cash drawer, scanner — supplied & configured
- Local Hub mini-PC for offline sites, or use your own
- Logo, colours & receipt customisation
- Menu loading & photography of your items

Our promise

- No lock-in — month to month, export your data any time
- Your prices, your menu, your name on every receipt
- Support by WhatsApp and phone, right here in Westmoreland
- New features every month at no extra charge
- Any currency, any country — remote setup worldwide
